## ASME Student Membership

It's never too early to  
**Engineer**  
your **Career**

Join **ASME**

## Join **ASME**, the essential association for engineers and technical professionals.

ASME (The American Society of Mechanical Engineers) is a not-for-profit professional organization that enables collaboration, knowledge sharing and skills development across all engineering disciplines. Founded in 1880, and with over 100,000 members worldwide – including more than 30,000 student members in over 140 countries – ASME is **the most important connection** a future mechanical engineer can make.

With ASME student membership, you can participate in activities and online groups to build your skills, attend virtual events to network with professional engineers, and access hundreds of valuable resources to jumpstart your career!

## Special virtual events.

### Take part in ASME E-Fests & EFX competitions

Develop new skills by collaborating with your peers and compete against the best and brightest

### Network online and at virtual campus activities and special events

Tap into the experience of other students and professionals

### Get hired

Find job postings, exciting internships and career guidance in the ASME Career Center

### Gain unlimited access to valuable technical resources & industry news

Get comprehensive, constantly updated technical information to inspire and supplement your course work, plus engineering news digests every weekday by email

### Grab exclusive student discounts

Take advantage of discounts on conferences, courses, publications, merchandise and more

### Access financial aid & scholarships

Use ASME sponsored programs to help subsidize your education

### Find everything you need online!

**ASME.org** provides anytime, anywhere access to everything that ASME has to offer
